WHEREAS, the petition included a map of the road to be improved and the benefitting properties, a description and cost estimates for the proposed improvements and maintenance, and was signed by 63% of the affected property owners; and

WHEREAS, the Board of County Commissioners has the authority to propose Road Improvement Districts for the purpose of funding road improvements and/or maintenance, pursuant to Section 7-14-2901, et. seq., MCA; and

BE IT FURTHER RESOLVED that the maintenance will include crack sealing, resurfacing, and other maintenance and repair as necessary to preserve the road surfaces, and that such maintenance shall be administered by the County Road Foreman, unless the Board enters into a contractual agreement with a representative body of the landowners within the district.

BE IT FURTHER RESOLVED that all lots would benefit equally and would be assessed for the improvement and subsequent maintenance of the improvement. Such assessments will be based upon lot area, not to exceed a maximum assessable area of 10,000 square feet per lot. The estimated cost of the improvement is \$24,600; annual costs are approximately \$5,081.10 (including administration and financing charges) for a period of seven years. Estimated annual maintenance costs are \$1,354.00. Based upon the assessment method described, annual individual lot assessments would be approximately \$229.83 per lot for the first seven years, and approximately \$48.36 per lot for subsequent years. All funds collected for the district shall be spent solely for the road improvement and maintenance activities within the proposed district.
