Montana School District ARP ESSER Plan Update

This tool allows districts to update their ARP ESSER plans at any point. Updates must be completed at least once every six months.

Federal Requirement

The US Department of Education (USED) required the OPI to establish a process for district plans consistent with the ARP ESSER requirements for the use of ARP ESSER funds and ensure plans be made available to the public, within no later than 90 days after a district received its ARP ESSER allocation (August 24, 2021). The requirements for the school district plans include, at a minimum, how districts will:

- 1. use funds to implement prevention and mitigation strategies;
- 2. use the funds totaling not less than 20% to address lost instructional time;
- 3. spend its remaining 80% of ARP ESSER funds;
- 4. respond to needs of student disproportionately affected by the pandemic; and
- 5. meaningfully engage with and consult stakeholders in crafting their plans.

Each of these federally required components are embedded into this school district ARP ESSER plan.

In addition, the USED requires the OPI to support and monitor each school district's use of ARP ESSER funds, including:

- i. implementation of evidence-based interventions;
- ii. address the student groups specifically that were disproportionately impacted by the pandemic; and iii. identify, reengage, and support students who have experienced the impact of lost instructional time. The plan will provide the information necessary for the OPI to support and monitor school districts as they move forward.

State Components

Throughout this school district ARP ESSER plan, the OPI has emphasized local control and coordination of state initiatives and requirements so that school districts can identify and innovate solutions for unique local needs and priorities. These components are embedded in the school district ARP ESSER plan. Additionally, the OPI will seek flexibility from the Board of Public Education to use the Goals section of this plan in place of the Continuous School Improvement Plan (CSIP).

Initial ARP-ESSER plans were developed through the use of a template. This plan update tool will provide districts with their most recent plan submission presented with the same fields and sections as their initial plan.

The sections of this tool match the sections of the template provided for districts to use for the creation of their plans.

The template sections are as follows:

- 1. School District-Identified Priorities
- 2. Meaningful Consultation
- 3. Goals
- 4. Coordinating Funds
- 5. Creating Safe and Healthy Learning Environment
- 6. Addressing Lost Instructional Time
- 7. Supporting the Educator Workforce
- 8. Monitoring and Measuring Impact of ARP ESSER funds

Prior to updating your school district ARP ESSER plan, consider the following:

What data do you have available to you to measure the impact of your work and guide plan adjustments? What feedback have you received from stakeholders around your plan and/or your plan implementation? What steps have you taken to engage stakeholders in your update process?

Instructions for updating your school district ARP ESSER plan

- Review the information in each field to verify that it matches the information you have at the local level. In the event that there is a difference please update any impacted fields during your update process.
- It is recommended that you complete your plan revision in a single sitting. If you are unable to do this please click through to the end of the survey and note on the final page that this submission represents an unfinished update draft.
- After you hit submit you will receive an email that contains a link that you can use for your next update. If you were submitting a draft update please be sure to return to complete your draft before the deadline.

Q72. 3. Goals

Q71.

Goal Action Plan:

Please define your Math goal, English Language Arts (ELA) goal, and other goal, based on the priorities you identified.

Explain what instruments or methods will be used to monitor the progress of the goals and determine if the goals are met. Click the box and provide the text response for each applicable box.

Math Goal

The district will utilize the paraprofessionals to teach additional small group activities focusing on measurement, data and geometry. These areas were lower in the MAPs data for the 2020-21 school year. The MAPs assessment will be given three times this year to track progress in these identified areas. The goal is that by the end of the year 85% of students are at average or above for their grade band on the MAPs assessment in measurement, data and geometry.

ELA Goal

The district will utilize the paraprofessionals for additional small group instruction for reinforcing vocabulary, literature and informational text. These areas were lower in the MAPs data for the 2020-21 school year. The MAPs assessment will be given three times this year to track progress in these identified areas. The goal is that by the end of the year 85% of students are at average or above for their grade band on the MAPs assessment in vocabulary, literature and informational text.

Other Goal (For example, SEL, Mental Health, Graduation Rates, Recruitment/Retention, Professional Development, Community and Family Engagement, etc.)

Trinity School will work to provide additional family and community
engagement by providing at least one evening per semester in which
community members and families are invited into the school for fun family activities. These nights will be dependent upon COVID transmission levels.

Goal Action Plan, Part 2:

Identify what strategies/action steps will be used to support the achievement of the goals. Describe a realistic and achievable timeline to achieve the goals.

Identify who is responsible to ensure the strategies/action steps are achieved. Click the box and provide the text response for each applicable box.

Math Goal Strategies, Actions, Timelines, and Assignments

The classroom teachers will administer and enter student MAPs testing data into a spreadsheet to track progress towards the goal. Administering the test three times a year will allow the teachers to make adjustments and additions to the curriculum as needed to ensure the 85% goal is made by the end of the year. The paraprofessionals will complete hands-on activities associated with the math curriculum or activities planned by the teachers to reinforce learning in the goal areas.

)47	. 6. Addressing Lost Instructional Time

Ç

Describe how the school district will use ARP ESSER funds it reserves under Section 2001(e)(1) of the ARP Act to address lost instruction time through the implementation of evidence-based interventions. The district must spend a minimum of 20% of ARP ESSER funds. The full implementation of the evidence-based interventions should be considered including personnel, materials, equipment, professional development, and expenses needed to meet the needs of students. Other evidenced-based practices may be utilized if the intervention meets one of the four tiers of evidence. Evidence-based practices may be found at OPI's Multi-Tiered Systems of Support page.

Q21. How do you plan to spend the required 20% set-aside to address lost instructional time? Choose all evidence-based practices that apply.
